Colors sorted by how common the part was in 2016-2020 (data: Rebrickable, 2021/01/18)
Part quantities based on the assumption that you purchased one of every set from 2016-2020 and sorted all of the pieces by elements.
Weighted score allows parts which I think are "more important" to have a higher impact on ranking than less versatile parts. (The parts included in the analysis, and the weighting is a judgment call based on my experiences.)
